

MOTOR CITY TABLES

each table is one-of-a-kind

SPECIFICATIONS

The heyday of American manufacturing lives on in our Motor City line. Each table is created using a hand-selected vintage car hood or trunk, which are collected right before the cars are sent off to be crushed and recycled.

FINISHES

The tops retain original design ridges, the colors are just as we find them, reflecting the original style as well as the years of use on the road. The tops are then finished off with an automotive clear coat.

LEG STYLES

Motor City tables are available as tops only, or with rectangular clearcoat steel tube bases for coffee tables or conference tables. Multiple tops can be attached to a single frame for conference tables, etc. Check with us for in stock tops, or tell us what you are looking for.

SIZES

- 24" x 30"
