

# ICONMODERN

COMMUNITY & CONFERENCE TABLE GUIDE

Icon Modern started with a simple idea: transforming urban trees into beautiful, custom tables. These trees are not harvested for their timber value, but are removed because of insects, disease or construction and would otherwise end up in landfill.

We believe each tree has a story to tell and as we craft each table by hand, we uncover their one-of-a-kind characteristics. The result is a truly sustainable, unique table that people are drawn to in a space. Our tables bring people together around a storied piece of furniture to inspire, connect and collaborate.

And as we have grown, so too has our table offerings, adding stone, steel, concrete and more. This document serves as a guide to our common options for tabletops, bases and add-ons, while providing inspiration for your next project. All of our tables are completely customizable so bring us your ideas.

URBAN HARDWOOD

# URBAN WOOD SPECIES + TABLE TOP SPECS

What is urban wood? Lumber diverted from landfills — fallen due to insects, disease, weather damage or construction, never grown to be milled for furniture.

All of our wood is sourced within a 100-mile radius of Chicago. Hardwoods are durable and great for high traffic areas.

**WHY CHOOSE URBAN WOOD?**

- It’s sustainable
- It’s durable
- It’s beautifully unique
- To bring nature indoors
- To reduce waste
- To support local community

**SPECIES OPTIONS**

Urban Walnut

Urban Ash

Urban Elm

Urban Hickory

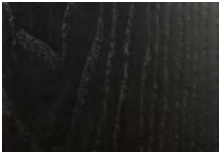

Urban Maple

Urban Oak

**SPECIALTY FINISHES**

Ebonized

Whitewash

Faux Walnut

Butcher Block

**STANDARD FINISHES**

Flat Finish

Satin Finish

All of our finishes are commercial-grade, water-based and low VOC.

**EDGE OPTIONS**

Straight Edge

Live Edge

Knife Edge

Bull-Nose Edge

Double Round Over

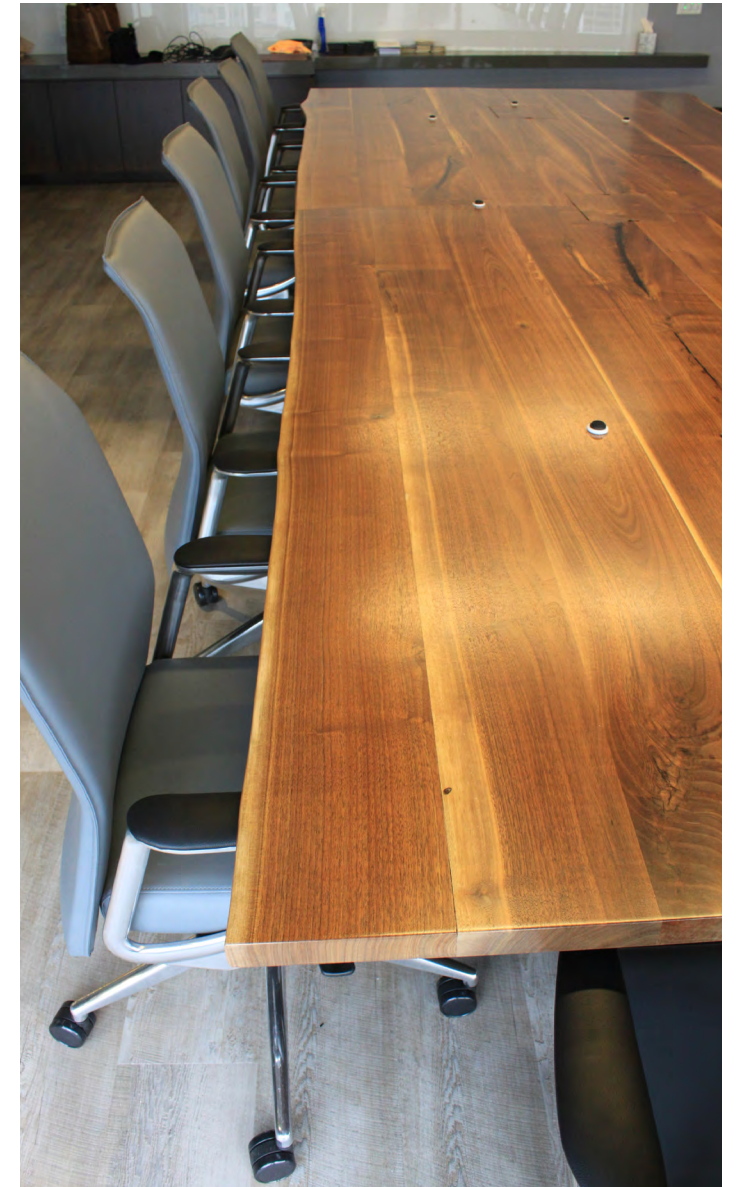

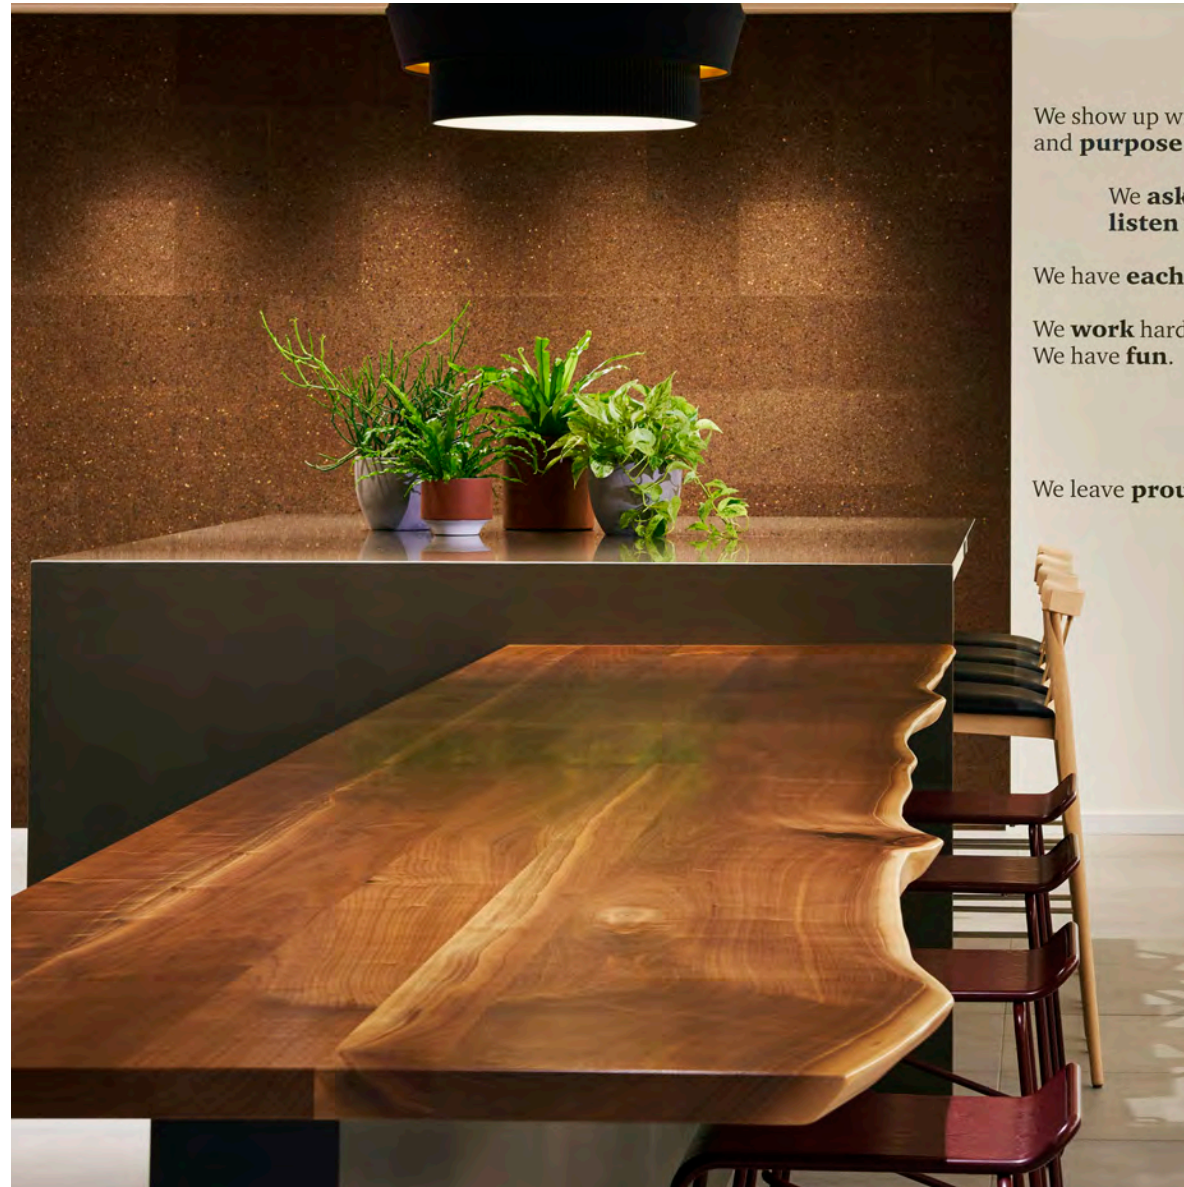

# URBAN WALNUT

## WHY CHOOSE WALNUT?

- Naturally dark in color with added interest due to the contrasting sapwood
- Large variety of live edge options due to tree shapes
- Trees grow large in diameter and are great for slab tables

## URBAN ASH

### WHY CHOOSE ASH?

- Ideal option for staining and ebonizing
- Many ash trees are dying due to the Emerald Ash bore making ash a cost effective raw material

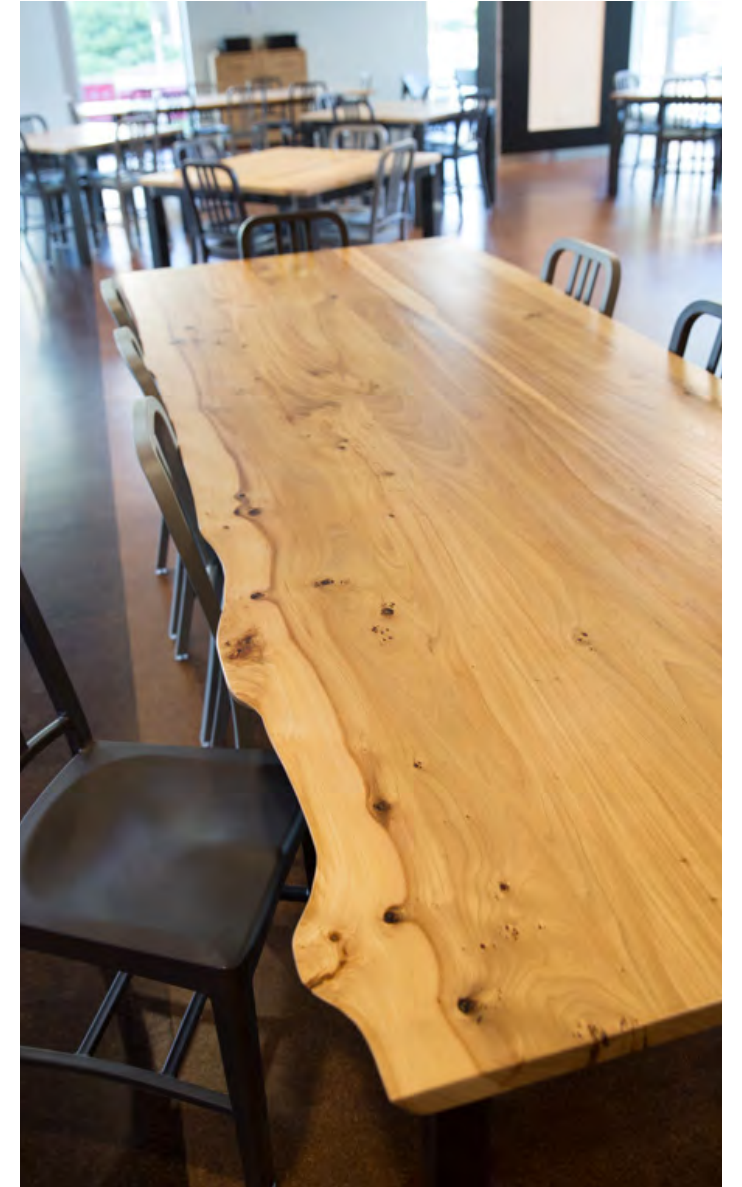

## URBAN ELM

### WHY CHOOSE ELM?

- Often has dramatic knot and grain patterns
- Elm trees grow in unique shapes resulting in dramatic live edge
- Trees grow large in diameter and are great for slab tables

## URBAN HICKORY

### WHY CHOOSE HICKORY?

- One of the most dense hardwoods grown in the US
- Traditionally used for furniture
- Bold knot pattern
- Distinct difference between the heart and sap woods

## URBAN MAPLE

### WHY CHOOSE MAPLE?

- Naturally light in tone
- Beautiful color variations
- Deep figuring
- Occasional spalting adds a network of black lines which follow the grain

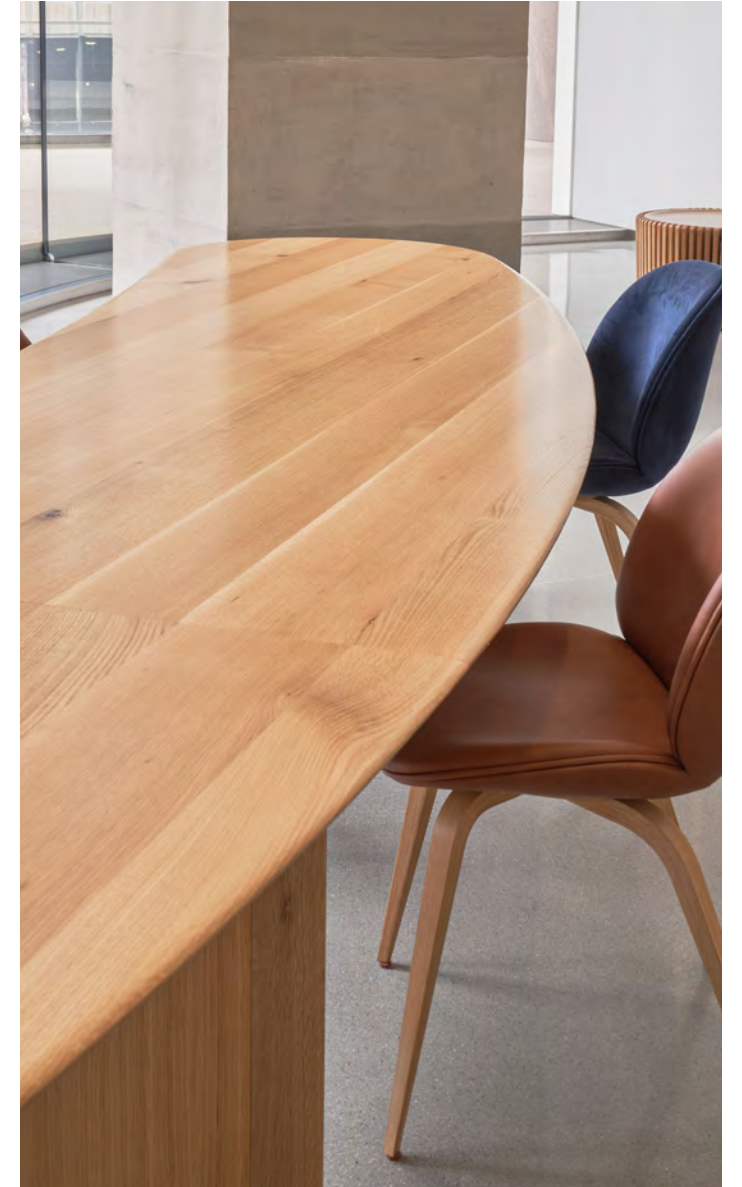

## URBAN OAK

### WHY CHOOSE OAK?

- Beautiful and consistent coloring
- Dense and tight graining
- Naturally rot resistant

## COMMUNITY & CONFERENCE TABLE GUIDE

# BOOKMATCHED VS APPLIED LIVE EDGE

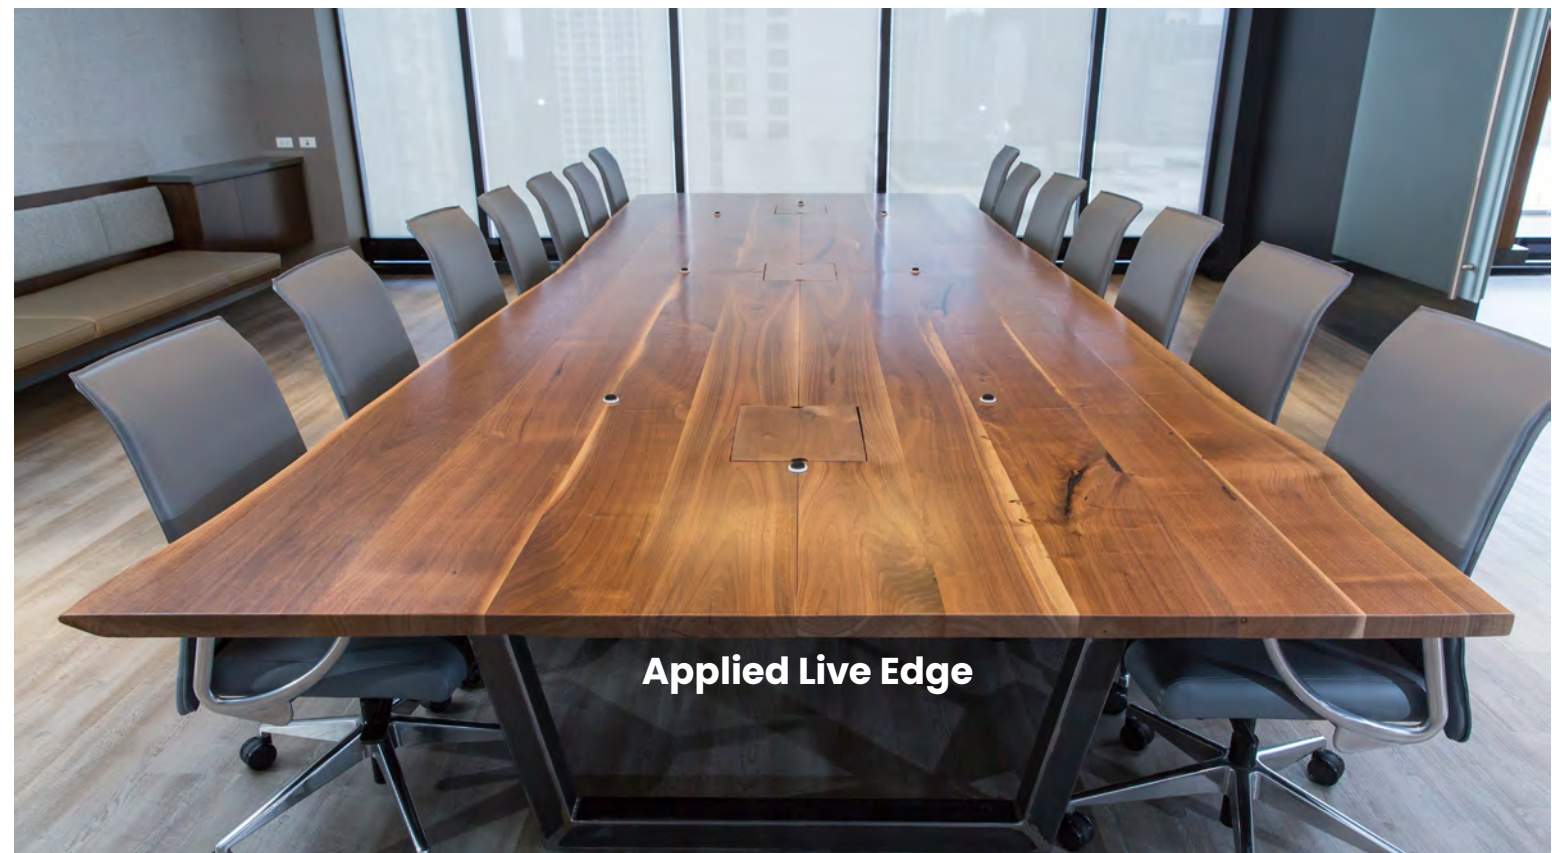

Live edge urban wood tables are a one-of-a-kind statement piece that have been made popular in offices as community, conference, counter and dining tables. But did you know we make two kinds of live edge tables?

### BOOKMATCHED SLAB

- Consists of two consecutive cuts from the same tree, joined together to mirror each other
- Width of each slab ranges from 12"-20", larger slabs available upon request
- Typical length of slabs ranges from 8'-13'
- Restricted to width and length of slab

### APPLIED LIVE EDGE

- Consists of multiple 6"-8" boards glued together
- Outside boards are live edge, custom selected for each table
- Customizable to virtually any dimensions
- Larger tables are often fabricated in multiple parts

COMMUNITY & CONFERENCE TABLE GUIDE

COMMON BASE OPTIONS

Our bases are fabricated with hot rolled steel, wood or veneer. Custom base designs are available upon request.

All steel bases are finished with powdercoat and wood bases are finished with a commercial-grade water based finish.

COMMON MATERIALS

- HR steel flat bar, tube, or plate
- Wood post or dowel
- All bases are height adjustable and can accommodate power
- Casters available upon request

DESIGN OPTIONS

Steel Panel

Angled

Steel Post

Strap

T-Base

Trapezoid

Wood Post

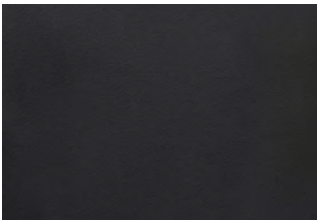

Wood Panel

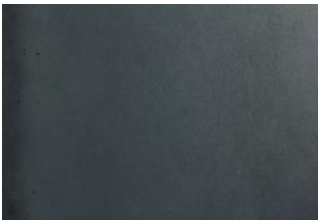

Steel Post + Casters

BASE FINISHES

Matte Black

Matte Clear

Select any RAL Color

## COMMON POWER OPTIONS

Customize your table to meet your client's needs with our power and data options. We can custom build a box to your spec or work with standard commercially available units.

Our bases are custom-built to accommodate wire management, utilizing an accessible center power leg or wiring through a standard leg.

### STANDARD OPTIONS

Integrated steel apron

Undermounted

In-surface drop-in

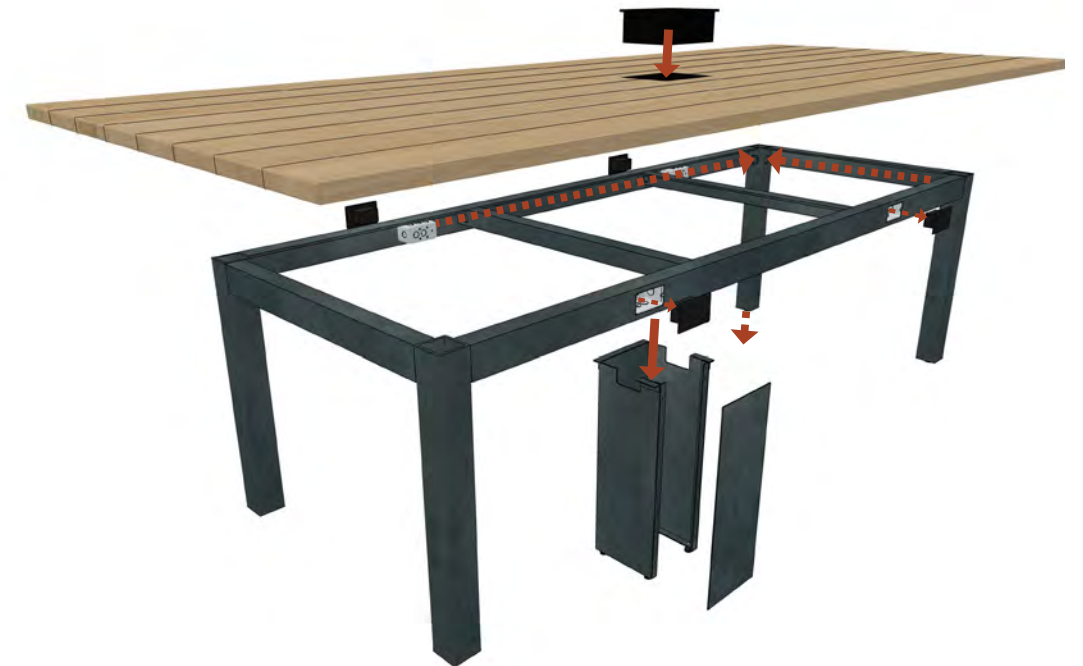

In-surface undermounted

In-surface flip-up

## ADDITIONAL INFORMATION

### INSTALLATION

We typically coordinate with the local purchaser for installation of our community and conference tables. If a turn-key solution is needed we can coordinate both union and non-union installation options.

### WARRANTY

Icon Modern warrants its products to be free from defects in material and workmanship for one year from the purchase date. We will work with you to repair or replace all product defects.

### SAMPLES

Wood, steel and other material samples are available upon request. We offer full wood and steel sample boxes for ease of storage in your sample library. Email [dropusaline@iconmodern.com](mailto:dropusaline@iconmodern.com) for any sample needs.
